Autos: Audi R8 V10

Sharp takes Audi's audacious new R8 V10 to Calabogie Motorsports Park to partake in a **DreamFleet** track day. It's hard to imagine that the original R8 could have been improved upon, but with 520 hp and the same pinup-worthy lines as the original, Audi seems to have one-upped themselves. Please be forewarned that opening the video footage of this scintillatingly sexy car rocketing around Calabogie's endless curves and valleys will pretty much ruin your productivity for the rest of the afternoon.
